

“Phones for Futures”

URGENT SMARTPHONE APPEAL FOR VULNERABLE SCHOOL CHILDREN

Do you have an used Iphone smartphone or tablet that you are no longer using? What better way to repurpose it than by giving it a new purpose and helping to secure the futures of vulnerable school children.

Due to Covid-19, schools in the Philippines have closed and, for the foreseeable future, online learning is the new method of education for school children. Upskills+ Foundation Inc support school children living in challenging circumstances in Tondo, Manila, many of whom do not have access to digital technology.

The generous act of donating a smartphone, tablet or cash for our team to purchase a reconditioned smartphone, will have a huge impact on the future of each and every one of these vulnerable children.

For more information about our Phones for Futures appeal, please visit www.upskillsfoundation.org

About Upskills + Foundation Inc (UFI)
UFI supports communities often living in makeshift houses, many of whom were the original informal settlers from the infamous Smokey Mountain dump site in Tondo, Manila. Families here are trapped in a cycle of poverty, many living with minimal or no running water, sanitation or electricity. At UFI, we work closely with the community on the ground to build the capacity and resources to help them move towards an independent, sustainable and more hopeful future through an holistic approach of education, health, nutrition and livelihood.

SMARTPHONE OR CASH DONATIONS CAN BE MADE VIA

* Upskills+ Foundation Inc. website www.upskillsfoundation.org through PayPal

* Phone/text: Marcel on +63 (0)917 310 6527

or Tess +63 (0)917 310 6488 to arrange payment

* Send bank transfer to Upskills+ Foundation Inc.
